TYPICAL CITATION FOR MBE AWARDED FOR BRAVERY TO RCAF

01/07/44 F/O Ross Patterson McLEAN, MBE (J21662) No. 6 Service Flying Training School

"This officer was taxiing his plane when a Harvard aircraft crashed on another runway. He quickly taxied over to the burning wreckage, jumped out and, with total disregard for his own safety and despite the danger of exploding gasoline, rushed into the flames. Having seen the occupant of the rear cockpit clear himself from the plane and crawl away, he rushed to the rescue of the instructor, who had managed to undo his safety harness and had then collapsed. With the assistance of an airman, he kicked in one of the side panels and attempted to pull the pilot out with his parachute on. Unable to do this, he reached into the burning cockpit, undid the harness, and pulled the pilot to safety. If it had not been for Flying Officer McLean's quick thinking and courageous and swift actions this airman would have lost his life, as the plane was burned out shortly after his release."

Awarded the **British Empire Medal** for assisting F/O Mclean was Leading Aircraftman Norman Frederick WOLCAST, Royal Australian Air Force, No. 6 Service Flying Training School.

MBE Cancelled due to a Criminal Conviction

Acting Sergeant Edward Augustus VANDERLIP, Canadian Armoured Corps (Canadian Army Active)

CG 20 March 1948: "The King has directed that the appointment of Edward Augustus VANDERLIP, late SH.77004 Acting Sergeant, CAC (Cdn Army Active Force) and previously H.77004 Warrant Officer Class II (Squadron Sergeant Major), Royal Canadian Armoured Corps (Cdn Army Active), to be a Member of the Military Division of the Most Excellent Order of the British Empire, dated 15th December, 1945, shall be cancelled and annulled, and his name erased from the Register, in consequence of his having been convicted by a competent court of criminal jurisdiction for an offence under Section 206 of the Criminal Code of Canada."

TYPICAL CITATION for an MBE to MERCHANT SEAMEN

"When the SS Point Pleasant Park (Elder Dempster Lines Ltd) was on passage from Canada to South Africa in 1945, she was torpedoed and the stern part of the vessel collapsed. Water rushed into the hold, the propeller was blown off and, although the pumps were started, the water continued to rise. Eventually the ship had to be abandoned. The Master (Captain Owen OWENS) instructed all boats to keep together and gave the course which should be followed. Nine days later the men were picked up by one of H.M. Ships. Captain Owens (and the other Canadian names noted above) showed exceptional courage and ability throughout.

26/07/2014 14/06/2014+	COHON, Ronald Ivan	Mr	Bibliographer and President Sir Winston Churchill Society of Ottawa, Canada. For services to British history.	CM MBE
---------------------------	---------------------------	----	---------------------------------------------------------------------------------------------------------------------	--------

Awarded **Member of the Order of Canada (CM)** as per the **Canada Gazette** of 05 December 2020.
"For his dedication to promoting and preserving literary and cultural heritage in Canada and Abroad".

Ronald Ivan Cohen, President and one of the three co-founders of the Sir Winston Churchill Society of Ottawa, attended Sir Winston Churchill's funeral in January 1965, not by invitation but by standing with the crowds in Parliament Square as the funeral procession made its way up Whitehall and thence to St. Paul's Cathedral. That interest grew into a collection of Churchill's writings and ultimately led to Cohen's authorship 40 years later of the definitive Bibliography of the Writings of Sir Winston Churchill (3 vols., London and New York: Continuum, 2006), for which he was honoured by The Churchill Centre (Chicago and London) by the grant of the Farrow Award for Excellence in Churchill Studies "for his magisterial three-volume Bibliography." In addition, Mr. Cohen has published many articles and notes over nearly 20 years in *Finest Hour*, the quarterly publication of The Churchill Centre and he speaks regularly on aspects of Churchill's life to organizations and societies in Canada and the United States. He is also a recognized expert in broadcast standards and self-regulatory procedures, having spent nearly 19 years as National Chair and CEO of the Canadian Broadcast Standards Council. His recent book, *Regulating Screens: Issues in Broadcasting and Internet Governance for Children* (co-authored with André Caron), was published in September 2013 by McGill Queen's University Press. He was also a film producer, the founding Chairman of the Academy of Canadian Cinema and Television, and Senior Counsel to the Quebec Inquiry into Organized Crime (la CECO) in the 1970s. He won the Genie Award for Best Picture for *Ticket to Heaven* (starring Kim Cattrall and Nick Mancuso) as well as the 125th Anniversary of Confederation Medal and the Queen's Diamond Jubilee Medal. A native of Montreal, Mr. Cohen holds an A.B. (cum laude) (Harvard) and a B.C.L. (McGill) and is now a Senior Fellow of the Faculty of Public Affairs at Carleton University.

29/08/2015 13/06/2015+	MacLEOD, Carolyn Heather	Mrs	Programme Manager, Royal Caledonian Trust "For Services to Education in the Armed Forces"	MBE

The Royal Caledonian Education Trust is Scotland's Armed Forces Children's charity. It began in 1815 and we put Armed Forces children and their families at the heart of everything we do. Find out more about our history. We seek a world where Scottish Armed Forces children are enabled to reach their full potential and for some, they need that bit of extra support and help. Whether it's providing financial assistance to help with school uniforms or providing resources, advice and training for teachers to use in schools, we are absolutely committed to giving Armed Forces children every opportunity to achieve and thrive. Find out more about our mission

Carolyn MacLeod - National Transitions Officer (Seconded to ADES)
Carolyn is seconded to the Association of Directors of Education in Scotland and her role ensures best practice at a national level in supporting Armed Forces children in education. Carolyn was previously a teacher for over 35 years in Canada, America, England and Scotland.

-----------------------	-------------------------------------------------	----	---------------------------------------------------------------------------------------------	--------

Awarded **Officer of the Order of Canada (OC)** as per the **Canada Gazette** of 11 October 2003.

Fred Smithers with RAdm John Newton in Halifax

Alfred A. Smithers is the founder, and former President and CEO of the Secunda Group of Companies. Through Iona Resources Limited, a Nova Scotia company made up of local investors, Mr. Smithers played a key role in the development of the Panuke Cohasset Oil Field, the first offshore oil production project in Canada, and in 2005 was recognized for this by being the recipient of the "2005 Pioneer Award" through the Offshore Technologies Association of Nova Scotia.

Inducted as an **Officer of the Order of Canada** in December 2003, Mr. Smithers is a member of the Nova Scotia Business Hall of Fame, and was named the 2000 Atlantic Canadian Entrepreneur of the Year recipient for "Entrepreneurial Excellence". In 2003 Mr. Smithers was named one of the "Top 50 CEOs of Atlantic Canada". In 2004 Mr. Smithers was a recipient of the "Canadian Red Cross Humanitarian Award". In 2005 Mr. Smithers received an Honorary Diploma from the Nova Scotia Community College. And in October of 2012 Mr. Smithers received an Honorary Doctorate from Saint Mary's University.

Mr. Smithers is the **Honorary British Consul for the Maritime Provinces**, President and owner of Granite Springs Golf and Country Club; Past Director, and Vice-Chair for the Halifax International Airport Authority; Past Board Member of The Shaw Group; Past Board member of Barrington Wind Energy. He currently sits on the Board of Directors for The Dartmouth General Hospital, and is on the Board of Governors for Saint Mary's University.

31/10/2020	MARWOOD, Alan	Mr	Special Constable, Nottinghamshire Police	MBE QGM
10/10/2020+	Prince Edward Island		"For services to Policing"	

(Nottingham, Nottinghamshire)

50 Years as a Volunteer Police Officer with the Nottingham Police

Alan, 68, joined the force in 1970 and has policed many different areas across Nottinghamshire.

He's been involved in some serious incidents, including one where he was shot at.

Alan's close shave came in 1978 when he was trying to stop a gang who had targeted a cash-in-transit van in Upper Parliament Street in Nottingham.

Marwood pursued the robbers in a police van and chased them on foot after they left their vehicle. He was shot at three times with one of the bullets narrowly missing him.

He was awarded the **Queen's Gallantry Medal (QGM)** in 1974. He would appear to be amongst the first awarded this medal for an event in 1972 and only the third to also receive the MBE.

He is no stranger to giving his time in the service of others having spent his career working for the East Midlands Ambulance Service and volunteering as a paramedic.

I contacted him on Facebook and he told me he was born in Prince Edward Island and still retains his Canadian Citizenship.

Medals: MBE Civil – QGM – EIRR Golden Jubilee – EIRR Diamond Jubilee – Police Force Special Constabulary LS and two Bars - Another

CG DATE	NAME	TITLE	POSITION	DECORATIONS	/
29/12/62	BEAUREGARD, Jean Paul R.E.	A/Captain	PPCLI	(OMM) MBE (CD)	

The MBE citation reads :

"It is noteworthy that Lieutenant Beauregard, although commander of a signals detachment, is a member of the Princess Patricia's Canadian Light Infantry. Lieutenant Beauregard's extreme devotion to duty, his zeal, enthusiasm, personal courage and cheerfulness during the period of hostilities in Katanga constitute distinguished and meritorious service of the highest order."

Lieutenant Beauregard was posted to the United Nations Force in the Congo on 15 May 1961. He was first employed at Headquarters 57 Signals Unit in Leopoldville and then served as the commander of a Signals detachment at Kanima and Stanleyville before moving on to Elizabethville in December where trouble was brewing. In an effort to complete the secession of Katanga Province from the Congo Republic and to force the United Nations from Katanga, President Moise Tshombe ordered his gendarmerie to commence hostilities on 05 December 1961. The Katangese established road blocks on the main lines of supply and shelled United Nations positions around Elizabethville. Lieutenant Beauregard, as Commander of the signals detachment there, distinguished himself with personal courage and leadership in this action. For his conduct under fire, he was awarded the MBE

Nations positions around Elizabethville. Lieutenant Beauregard, as Commander of the signals detachment there, distinguished himself with personal courage and leadership in this action. For his conduct under fire, he was awarded the MBE

Died at home on January 12, 2018 at the age of 84. Born in Gravelbourg, Saskatchewan on September 23, 1933. Joined the Canadian Army in 1951 and served in the Korean with the Royal 22^{ème} Régiment. Commissioned following his return from Korea, he transferred to Princess Patricia's Canadian Light Infantry whose affiliation he maintained until his retirement in 1989. He served with NATO forces in Europe (three tours), with the UN forces in the Congo and attended Staff College in India in addition to varied appointments in Canada. Following his retirement, he maintained an active involvement in the Korea Veterans Association of Canada.

Mourning his passing and missing his wit, his wicked sense of humour and his constant readiness to help are his wife, Oxana, daughter Tanya Alexandra (Nick), granddaughters Daisy and Katerina, sister Marcelle in Gravelbourg, brother Georges (Stella) in Winnipeg and their children Suzanne (Ken), Paul (Jennifer) and Guy, Ottawa-based nieces and nephew Teri (Bob), Marc (Lisa), Michèle and Lise who were a great support in his later years, and a large extended family.

MBE (military-gallantry) awarded to the CANADIAN ARMY for the CONGO/ONUC (MBE)

04/01/64 **LISTON, Joseph Terrance Francis** Lieutenant Royal 22e Regiment MBE MSM CD

Medals: MSM - MBE – SSM with bar NATO – Peacekeeping – UN Congo – EIIR Diamond - CD and two bars – Corps of Commissionaires LS&GC

Awarded Member of the Order of the British Empire (MBE) for Gallantry as per the **London Gazette** of 03 January 1964 had this citation:

ZD 7810 Lieutenant Joseph Terrence Francis Anthony Liston, Royal 22e Regiment, Canadian Army

“On 12th January 1953 at Kabongo, Lieutenant Liston was serving as a United Nations Liaison Officer with a Congolese Patrol. A Sergeant of the Patrol, crossing a grassy area, stepped on an anti-personnel mine which detonated, injuring himself and two others. On his arrival, Lieutenant Liston found that two of the injured had been rescued, but the Sergeant was still inside the mine field, which he had penetrated further than the others. Using a bayonet at a probe, Lieutenant Liston found and marked three mines. He gallantly made his way

twelve yards into the mine field, reached the injured man and, aided by a Congolese soldier, carried him out of the danger area. The courageous and effective action taken by Lieutenant Liston was in the best tradition of the Canadian Army.”

Awarded **Meritorious Service Medal (MSM)** civil as per the **Canada Gazette** of 07 January 2017.

“Retired Major-General Terrence Liston demonstrated outstanding leadership in establishing the Société du Patrimoine de la Citadelle et du Royal 22^e Régiment, as well as in planning the celebrations marking the 100th anniversary of the regiment. Tireless in his dedication to improving knowledge of French-Canadian military history, he is a model of generosity. His many media appearances have greatly helped to enhance his regiment’s reputation.”

See more details under Mr. Austin Lloyd GARRETT, MBE

On 5 September 1967, ČSA (Ceskoslovenské Aerolinie) Flight 523 from Prague to Havana via Gander, an Ilyushin IL-18D, OK-WAI, crashed on climb-out from Gander International Airport, after being re-fuelled for the final leg of the flight. The aircraft took off from runway 14 climbing at an abnormally shallow angle. The aircraft struck a supporting wire of a mast, climbed to 40 m (130 ft), then started to dive, hitting the ground at a speed of approximately 360 km/h (220 mph; 190 kn), hit a railway embankment 4,000 ft (1,200 m) past the end of the runway, caught fire and broke into pieces. Four crewmen and 33 passengers out of a total of 69 on board were killed. The aircraft was relatively new, manufactured in April 1967, having flown only 766 hours. The crew, replaced by a fresh one in Gander, consisted of a captain with over 17,000 hours experience (over 5,000 on the IL-18), familiar with the airport as he had been flying there since 1962, and a co-pilot with over 10,000 hours experience. The cause was never determined but may have been a faulty altimeter.

24/08/91	MacDONALD, Matthew Gregory	Major (now MGen)	Royal Canadian Dragoons with British Army during the Gulf War	OMM MBE CD	

Awarded **Officer of the Order of Military Merit (OMM)** as per **Canada Gazette** of 20 June 1998 in the rank of Colonel.

Awarded the **United States Legion of Merit (Officer)** in 2002.

Awarded **NATO Meritorious Service Medal** as per **Canada Gazette** of 25 August 2007 in the rank of Brigadier-General.

Promoted to Major-General and became Chief of Defence Intelligence in January 2007.

Major-General Matthew Gregory MacDonald, OMM, MBE, CD
Colonel Commandant – Royal Canadian Dragoons

Major-General Macdonald enrolled in the Canadian Armed Forces as an Armour Officer in 1976 after completing his Bachelor of Arts Degree in Political Science at the University of Prince Edward Island.

Major-General Macdonald has commanded at the troop and squadron level, and was the Commanding Officer of the Regiment from June 1992 to June 1994.

Over the course of his career, Major-General Macdonald has worked in Somalia, Bosnia, Afghanistan, and elsewhere in support of Canadian Armed Forces missions. He was the Canadian Contingent Commander during a humanitarian mission to Central Africa in late 1996 and was the Commander of 2 Canadian Mechanized Brigade Group from June 1998 to June 2000.

From July 2000 to June 2002 Major-General Macdonald served as Deputy Commanding General of III (US) Corps in Fort Hood, Texas. In August 2004 he was posted as the Director of Staff Supreme Headquarters Allied Powers Europe.

In January 2007, Major-General Macdonald served in his last posting as the Chief of Defence Intelligence where he was the principal intelligence advisor to the Minister of National Defence and the Chief of the Defence Staff. He travelled extensively throughout the world fostering intelligence relationships in order to support the Canadian Armed Forces wherever they operated.

Major-General Macdonald is a graduate of the Royal Canadian Armour Corps School, the United States Army Armour Officer Advanced Course, the Canadian Forces Command and Staff College and the United States Army War College. He was appointed as a Member of the Most Excellent Order of the British Empire in 1991, as an Officer of the Order of Military Merit in 1997, was awarded the United States Legion of Merit in 2002, and again in 2010, and granted the NATO Meritorious Service Medal in 2006. He was deeply privileged to receive an Honourary Doctor of Laws from his alma mater in 2014 for service to Canada.

Major-General Macdonald retired from the Canadian Forces in 2011 after 35 years of exemplary service. He is married to Ann and together they live in Avondale, PEI

(MBE)**

CG DATE	NAME	TITLE	POSITION	DECORATIONS	/
18/02/06	SAUVÉ, J.R. Ghislain	Major	RCAF	MBE CD	

In a moving ceremony marked by the pomp and tradition of Buckingham Palace, Her Majesty Queen Elizabeth II presented Canadian Air Force Major Ghislain Sauvé, Base Construction Engineering Officer at Canadian Forces Base Borden, with the Most Excellent Order of the British Empire (MBE) on November 2, 2005.

Posted to Britain in 2000 as a design engineer on exchange with the Royal Engineers, Major Sauvé deployed on operations after his arrival there. In his deployment to Jordan supporting British Special Forces, he was identified as a leading contributor to the success of their mission despite the operational challenges facing them. The conditions under which Major Sauvé led his team were hostile and dangerous while the blinding heat of the Middle Eastern sun tested him and his team of sappers.

But Major Sauvé's duty also saw him in the forefront of the war on terror. In 2003, he served in the American led coalition in Kuwait and Iraq that toppled the regime of Saddam Hussein. On another occasion while in Afghanistan, he led his team in the design of a new British headquarters. Eventually, Major Sauvé's design became the example for British engineering in adverse conditions.

And thus, the British Army recognized Sauvé's inspired leadership and technical expertise with the awarding of the MBE. His citation says it all, "No one person across the military specialist engineer effort contributed as much, as often or across so many operations."

Lieutenant-Colonel J.R. Ghislain SAUVÉ, MBE, CD

Ghislain Sauvé joined the Canadian Forces in June 1983, and spent the next seven years first completing his college diploma, then his Bachelor's degree in Civil Engineering and finally his Master's degree in Engineering from McGill University in Montreal.

Following all that schooling, Lieutenant Sauvé was posted to the Canadian Forces School of Military Engineering to complete his officer training. In April 1991 he was posted to 1 Construction Engineering Unit (then located in Winnipeg, Manitoba) as a Project Officer, remaining there until August 1995. It was in Winnipeg that Capt Sauvé met and married his wife Simone.

In 1998 Captain Sauvé rejoined 1 Construction Engineering Unit, now in Moncton, NB, and since renamed 1 Engineer Support Unit (1 ESU), and immediately deployed to Camp Butmir near Sarajevo, BiH as the 2IC of the Works & Design Company (ROTO 3). His time in theatre was spent conducting technical evaluations on lines of communications, i.e. roads, bridges, rail embankments.

In 2000 Capt Sauvé and family headed to the UK as a Canadian exchange officer with the British Army. During this time he undertook operational deployments to Kosovo, Afghanistan, and Iraq, provided engineer support to British Special Forces in Jordan, and took part in engineer evaluations in Gibraltar, Cyprus, and the Falkland Islands. He was nominated as a Member of the Order of the British Empire in 2005 (Canada Gazette of 18 February 2006).

The Sauvé family returned to Canada in 2004, where Major Sauvé took up the duties of Base Construction Engineering Officer at Canadian Forces Base Borden in Ontario. After a rewarding three years in that position, Maj Sauvé was posted to Canadian Forces College in Toronto to complete the Joint Command and Staff Programme.

In 2008, the Sauvé family returned to Winnipeg, Manitoba, where Lieutenant-Colonel Sauvé became the A4 CE FG (A4 Construction Engineering Force Generation) at 1 Canadian Air Division Headquarters. After a short but eventful two years in that position, LCol Sauvé was selected to become Commanding Officer of 1 Engineer Support Unit in July 2010. He subsequently supported the Canadian Army as Director Land Infrastructure from 2012 to 2014, completing his military service as D Air Sp 3 (Air Staff).

Lieutenant-Colonel J.R.G. Sauvé, MBE, CD retired from the Canadian Armed Forces on 18 May 2015, with almost 32 years of loyal and dedicated service to the CAF and the CME Branch. He will be remaining in Ottawa, where he will be commencing his new employment with Correctional Service Canada.

MBE

In a moving ceremony marked by the pomp and tradition of Buckingham Palace, Her Majesty Queen Elizabeth II presented Canadian Air Force Major Ghislain Sauvé, Base Construction Engineering Officer at Canadian Forces Base Borden, with the Most Excellent Order of the British Empire (MBE) on November 2, 2005. Posted to Britain in 2000 as a design engineer on exchange with the Royal Engineers, Major Sauvé deployed on operations after his arrival there. In his deployment to Jordan supporting British Special Forces, he was identified as a leading contributor to the success of their mission despite the operational challenges facing them. The conditions under which Major Sauvé led his team were hostile and dangerous while the blinding heat of the Middle Eastern sun tested him and his team of sappers. But Major Sauvé's duty also saw him in the forefront of the war on terror. In 2003, he served in the American led coalition in Kuwait and Iraq that toppled the regime of Saddam Hussein. On another occasion while in Afghanistan, he led his team in the design of a new British headquarters. Eventually, Major Sauvé's design became the example for British engineering in adverse conditions. And thus, the British Army recognized Sauvé's inspired leadership and technical expertise with the awarding of the MBE.

His citation says it all,

"No one person across the military specialist engineer effort contributed as much, as often or across so many operations."

Medals: Peacekeeping – UNPROFOR – NATO bar former Yugoslavia – NATO ribbon Kosovo – CD and Bar – MBE - Operational Service bar Afghanistan (British) – Operational Service Medal ribbon Iraq (British)

Awarded Meritorious Service Cross (MSC) as per Canada Gazette of 04 June 2016 in the rank of Lieutenant-Colonel as the leader of the Canadian Ebola Team in Sierra Leone. Member of the Royal Canadian Health Services.

He became the Commanding Officer of 2 Field Ambulance.

Medals: MSC – Southwest Asia with bar Afghanistan – General Campaign Star with SWA ribbon – Peackeping - UN Cyprus – Diamond Jubilee - CD – MBE - Ebola Medal (British)

CITATIONS for post WW2 MBEs (military) for Gallantry to CANADIAN MILITARY (MBE)

Note: This awards are listed previously – it is just that they had Canada Gazette citations published

31/07/48

Captain Ross Warrington WILLOUGHBY, MBE, Royal Canadian Army Medical Corps

For the rescue mission of Anglican missionary Canon J.H. Turner on Baffin Island from 30 September to 20 October 1947. Captain Lionel Guy D'ARTOIS, DSO, GM, Royale 22e Regiment du Canada, was awarded the George Medal, Sergeant Howard Clifford COOK, BEM, Royal Canadian Corps of Signals, was awarded the British Empire Medal and, Sergeant William Wallace JUDD, Royal Canadian Corps of Signals, was awarded the King's Commendation for Brave Conduct.

=====

30/04/49

Major Ronald William John GRINSTED, MBE, ED, Royal Westminster Regiment
Royal Canadian Infantry Corps

"Gallant conduct in a rescue from drowning during the floods in British Columbia in June 1948."
1982 Royal Canadian Infantry Corps (Reserve)

=====

Post-WW2 MBEs (military) for Gallantry to CANADIAN MILITARY MEMBERS (MBE)

04/06/55

Lieutenant (P) Wallace Elmer JAMES, MBE, Royal Canadian Navy

"For gallantry in the rescue by helicopter of an injured lighthouse keeper off the coast of Nova Scotia." Helicopter used in the rescue was an HUP-3 number 51-16621.

In October 1954, the lighthouse keeper on St. Paul's Island in the Cabot Strait had a fractured skull and a badly wounded arm as a result of a dynamite explosion. Lieutenant W.E. James, pilot of Helicopter HUP-3 51-16621, with one crewman, flew to Sydney, where he picked up a physician before continuing the flight in gale-force winds and poor visibility. After landing on the island in swirling snow, the pilot had to keep the rotors going for the three-quarters of an hour that the doctor was attending the patient and bringing him to the machine. The return to Sydney was made without any trouble and the Piasecki finally arrived back at base after a mission lasting 8.5 hours.

04/01/64

Lieutenant Joseph Terrance Francis Anthony LISTON, MBE, RCIC (R22eR) (UNOC)

"Saving a wounded Congolese from a Minefield"

"On 12th January 1963, at Kabongo, Lieutenant Liston was serving as a United Nations Liaison Officer with a Congolese Patrol. A Sergeant of the Patrol crossing a grassy area, stepped on an anti-personnel mine which detonated, injuring himself and two others. On his arrival, Lieutenant Liston found that two of the injured had been rescued, but the Sergeant was still inside the mine field, which he had penetrated further than the others. Using a bayonet as a probe, Lieutenant Liston found and disabled three mines. He gallantly made his way twelve yards into the mine field, reached the injured man and aided by a Congolese soldier, carried him out of the danger area. The courageous and effective action taken by Lieutenant Liston was in the best tradition of the Canadian Army."

Medals: MBE + rosette for bravery – SSM bar NATO – Peacekeeping – UN Congo – EIIR Diamond Jubilee - CD & 2 bars – Canadian Corps of Commissionaires LS&GC

CITATIONS for MBE (military) for GALLANTRY post WW2 (MBE)

26/06/65

WO2 (CSM) Georges OUELLET, MBE, RCIC (R22eR) (United Nations Cyprus)

London Gazette Entry Reads:

“Saving the life of twelve Greek-Cypriot farmers and arranging a cease fire on 10 April 1964.”

Full citation found in the book “In the Eye of the Storm” follows:

“As a member of the Canadian Contingent, United Nations Force in Cyprus, Warrant Officer 2 Ouellet served as reconnaissance patrol leader with the 1st Battalion, Royal 22e Regiment. On 10 April 1964, when Turkish-Cypriots in the Kyrenia Pass area advanced toward the Greek-Cypriot positions in the area of Kata Khikomo, they attacked with direct small-arms fire. Twelve unarmed Greek- Cypriot farmers scattered in the open fields on the Onisha cooperative farm. It was at this time that W.O.2 Ouellet arrived in the area with his patrol. He deployed his men and with complete disregard for his own safety brought them for protection into a farm building. Leaving two of his men with them, he then approached the Turkish-Cypriot positions, arranged for a temporary cease-fire and succeeded in evacuating the farmers to safety in a nearby Greek-Cypriot village. By his quick thinking and at the risk of his own life, he saved the lives of twelve Greek-Cypriots, gained the respect and admiration of his men and of the Greek- and Turkish-Cypriots, enhanced the prestige of the Canadian peacekeeping force and paved the way for an eventual stabilization of the cease-fire line in the area.”

08/06/68

Captain (N/S) Josephine Anthony CASHIN, MBE, Royal Canadian Army Medical Corps

Canada Gazette Citation Reads:

“At approximately 0250 hrs, September 5, 1967, Captain (Nursing Sister) Cashin was called to give medical assistance at the crash scene of a Czechoslovakian IL-18 aircraft near Gander International Airport. Hastily donning slacks, sweater and light sandals, Nursing Sister Cashin made her way towards the scene of the crash. To reach the actual crash site she had to cross, in total darkness, some half-mile of muskeg bog containing water filled holes, some hip deep. Nevertheless she was one of the first on the scene. Enroute, she intercepted some of the injured victims stumbling around in the bog in a dazed condition and gave what assistance was available from the limited resources at hand. Struggling through the littered and burning area with complete disregard for her own safety, Nursing Sister Cashin repeatedly answered screams for help from the injured. During some five hours at the crash scene, lightly clad and wearing only summer sandals, she was constantly in and around the burning wreckage searching for and giving aid to the many injured. Under the most adverse and confused conditions, Nursing Sister Cashin worked fearlessly and tirelessly, displaying bravery, initiative, resourcefulness and selfless devotion to duty without thought of regard for her own safety or well being. Only when the last survivor had been found did she leave the crash scene, not to ease her own discomfort, but for the James Paton Memorial Hospital where she continued to contribute her professional skill to the further care of the injured. The bravery and selfless devotion to duty displayed by Nursing Sister Cashin was apparent at all times, and no doubt was responsible for the saving of many lives.

CITATIONS for MBE (civil) for GALLANTRY 1961 – 1968 (MBE)

29/07/61

Dr Barrie Clarke FLATHER, MBE (Medical Doctor – Newton, B.C.)

Canada Gazette citation reads:

"A rock blast at Howe Sound Company No. 8 mine on October 31, 1960, at approximately 6:00 p.m. caused a rock fall of 6,000 tons to cave in the mining floor and mucking floor of the 4918 foot slope at the 4900 ft. level. At the time of the blast **Henry Wenzel** was working alone on the mining floor approximately 42 feet from the east manway; **Tom Achibald** was operating a scraper on the mucking floor below, approximately 10 feet from the east manway. Henry Wenzel was trapped in a small pocket of rock and broken timber below the mining floor. Tom Archibald, who escaped the cave in, ran out of the mine and raised the alarm.

Rescue operations were commenced immediately. After crawling into a number of small holes in an effort to locate a passage leading through to Mr. Wenzel, **George Priessler** found an aperture approximately 16 inches square leading underneath the caved stope, through sand and gravel fill. He managed to crawl through the hole a distance of 42 feet where he was able to speak to the trapped miner, at a point 12 feet below the miner. Mr. Wenzel told Mr. Priessler that his arm was almost completely shattered at the elbow and that he was bleeding profusely. Mr. Priessler crawled back to the east manway safely and reported his findings to **John Johnson**, who was in charge of the rescue group.

After consultation among the miners, it was decided to widen the tunnel Mr. Priessler had found and brace it with timber. This was begun and at approximately 1:00 a.m. (5 hours later) the tunnel was complete to the place where Mr. Priessler had established contact with the trapped man. A natural hole was located leading up through the fallen rock, and it was believed that Mr. Wenzel was at the far end of this hole. Because of the miner's condition, the rescue crew decided to save time by not shoring up the passage leading to him. The hole was filled with broken timber and broken rock and had to be enlarged sufficiently to allow the passage of a man's body through it. The rescue crew carefully sawed by hand several of the 10" x 10" timbers lodged in the hole to make enough room for a man to squeeze his way up through the hole.

When they had finished Mr. Priessler managed to ascend through the small opening and eventually got through to the miner. **Dr. Barrie Clarke FLATHER** was brought into the rescue tunnel, after having been warned of the danger of a second rock fall, particularly in the area where Mr. Wenzel was trapped. When George Priessler returned from having located Mr. Wenzel, the doctor gave him some morphine pills to take to the injured man to relieve his suffering. Mr. Priessler took the pills to Mr. Wenzel, returned to the tunnel for a lamp that Mr. Wenzel had requested and went back into the danger zone a third time. Upon his return, John Johnson of Britannia Beach, a larger man than George Priessler, squeezed through the passage leading to Mr. Wenzel to establish whether or not the doctor could get through. Having succeeded, John Johnson came back into the tunnel.

Dr. Flather then climbed up through the caved stope. He could not get close to the injured man and had to reach in to him. Using a pair of surgical scissors he amputated the shattered arm at the elbow, and passed the stump to a man waiting below in the tunnel. He dressed the wound and bound Mr. Wenzel's upper arm to his body and then descended into the tunnel.

The problem of getting the miner out of the caved stope remained. The rescuers estimated it would take three days digging to make an opening large enough for a stretcher to pass through. John Johnson asked George Priessler if he could once more return to Mr. Wenzel and encourage him to come out himself. George Priessler again ascended into the caved-in stope, and after explaining the situation to the injured man, he assisted him by guiding his feet through the broken timber and loose rock, while Mr. Wenzel lying on his stomach inched his way out of his prison. When he reached the entrance to the tunnel, willing hands placed him on a stretcher, and he was taken to the hospital."

Dr. Barrie Flather died on 05 March 2003 at the age of 70 in Surrey, British Columbia.

George Juergen PRIESSLER was awarded the GEORGE MEDAL

John JOHNSON was awarded a QUEEN'S COMMENDATION FOR BRAVE CONDUCT
"For Bravery when an accident occurred in a mine."

CITATIONS for MBE (civil) for GALLANTRY 1961 – 1968 (MBE)

17/09/66

Mr. Lyle GIBSON, MBE (Pilot – Lamb Airways)

Canada Gazette citation reads:

"On Friday, January 7, 1965, at approximately 6:15 am, Mr. Lyle Gibson, an employee of Lamb Airways of The Pas, Man., left The Pas with two passengers, Messrs. Donald Marshall Snider and Fred Wark, employees of the Manitoba Government Telephone, on a routine repair and service trip to the northern hydro plant at Grand Rapids. On take-off the weather was good; however, about twelve miles north-west of Grand Rapids, Manitoba, they ran into blowing snow and fog. Subsequently, the aircraft flew into a "white-out". This is a condition caused by blowing snow in which the pilot loses sight of the horizon and is unable to judge his position with regard to direction or altitude. The plane crashed on the lake about two miles from the west shore of a lake at about 9:00 am. It is believed that the right wing hit the snow first. The pilot and his passengers lost consciousness on impact. On regaining consciousness, the pilot discovered that both his passengers had suffered multiple and extensive injuries while he himself had sustained two broken ankles and severely frozen hands. Mr. Gibson, in extreme pain, and able only to crawl, pried open the door of his damaged craft. One passenger was able to get out but the other could not. Mr. Gibson assisted him out of the aircraft, then unloaded an engine tarpaulin and fashioned a tent for his passengers. Mr. Gibson was able to provide some heat for them by retrieving a flare pot, holding 1/2 gallon of gas, and pumping it with his frozen hands until it ran out of gas. There were no sleeping robes or survival equipment in the aircraft.

Shortly after 5:00 pm, Mr. Gibson noticed his feet were well frozen and that he could stand on them. After discussing the situation with one of the passengers, he decided to start walking for help. Before leaving, he saw his passengers roll themselves up in the tarpaulin and lie beside the aircraft as much out of the wind as possible.

Mr. Gibson crawled and walked for eight hours, a distance of eight miles, in extreme conditions of cold and wind. He was often tempted to rest but forced himself to continue on in a temperature that fell to 30F degrees below zero.

Mr. Gibson finally reached a locked inspection hut, approximately 2 miles west of Grand Rapids. Mr. Gibson broke the window, fell inside and tried to use a telephone but was unable to do so as he could not lift the receiver with his frozen hands. He lapsed into unconsciousness and was discovered the next morning January 8, at approximately 9:00 am by a Manitoba Hydro patrol. The directions supplied by Gibson enabled a bombardier which was sent out across the ice to locate the one survivor and the body of the second passenger who had died during the night.

The pilot subsequently had one leg, the other foot, the thumbs and fingers on both hands and part of his nose amputated. In his report, the doctor mentions that every step taken by Gibson was at the cost of excruciating pain.

At the inquest held at Grand Rapids, the jury commended the pilot of the crashed plane for his courageous efforts in obtaining help.

=====

CITATIONS for MBE (civil) for GALLANTRY 1961 – 1968 (MBE)

29/06/68

Mr. Austin Lloyd GARRETT, MBE (Helicopter Pilot – Gander, Newfoundland)

Canada Gazette citation reads:

"At approximately 2:40 a.m., Tuesday, September 5, 1967, a Czechoslovak aircraft crashed shortly after taking off from Runway 14-32 at Gander International Airport. The aircraft crashed about 3,762 feet from the end of the runway and the wreckage came to a rest about 5,344 feet from the end of the runway. This area is almost entirely bog and very dangerous to walk on at night. It is stated that several of the rescue workers, including the Fire Chief at the Airport, stepped into holes and sank up to their waists before being pulled out. The remains of the aircraft were about 1,980 feet from the nearest road and it was impossible to get rescue vehicles across the bog to the scene. It would have taken hours to carry all of the injured out across the bog. It was accordingly agreed among the Airport management that a helicopter would cut down on the suffering and speed up the rescue operations, and one was therefore obtained with it pilot, Mr. Garrett.

When members of the R.C.M.P. Gander Detachment, together with rescue workers, arrived at the scene, the aircraft was found to be completely demolished and engulfed in flames. Most of the passengers were burned, cut and had broken bones and some were still strapped to their seats which had been thrown clear. The ones that were dead were left where they were. The ones that were injured were placed on stretchers and moved away from wreckage and fire, and were kept warm while waiting for the helicopter to remove them.

The records at Gander International Airport recall that between 4:09 am, when the pilot first had the helicopter airborne, and 5:50 am, he made 18 round trip flights from the crash site to the Airport Terminal where the injured were transferred to ambulances. Each round trip was approximately 4 miles in distance and took between 4 and 11 minutes. By 5:50 am all of the injured had been removed from the scene. It is noted that it was not daylight at this time as the sun did not rise until 6:30 am.

Mr. Garrett continued bringing out bodies and taking equipment to the scene and by 8:08 am had completed 36 round trips to the scene. He ended his efforts at 1:04 p.m. after completing 45 round trips to the crash scene.

Mr. Garrett's efforts in the rescue operations greatly reduced the time required to evacuate the injured from the scene and this was completed during hours of darkness when a helicopter is not normally operated. It is very difficult to fly this aircraft under normal circumstances; as the rescue operations took place during a very dark night the pilot ran into more difficulties. It is mentioned that on that night there was very little wind and the smoke from the burning wreckage blanketed the area and at the same time slowly drifted towards the airport. Therefore, as the pilot approached the scene, he had to fly over the smoke and on a few trips had to fly through some of it.

It should be remembered that in this type of operation, that is vertical landings and takeoffs, the aircraft has no flight instruments of any value to the pilot who must rely entirely on visual reference to the ground for their execution. The only landing aids were the lights of the helicopter, flashlights held by rescue workers and fire from the crash.

Taking into consideration the environment in which Mr. Garrett was working at the time, that is, the combination of a very dark night, fire, smoke, wreckage and rescue workers on the ground somewhat confused but trying to direct the helicopter with flashlights, and also the great urgency of the situation which required that the injured be removed as quickly and with little suffering as possible, it is felt that Mr. Garrett was exposed to a high degree of risk to life and health." (See also Nursing Sister Cashin)
